## About Our Studio

Every piece that leaves our studio is a one-of-a-kind work of art. We specialize in hand-poured resin dragon eggs crafted from premium art resin, professional pigments, and carefully chosen inclusions. No two eggs are ever exactly alike — each has its own color story, its own texture, its own character.

We offer two ways to bring a dragon egg into your life: our **Custom Creation** service, where you guide every design choice, and our **Ready-to-Ship** collection of completed eggs available for immediate purchase. Both are made with the same love and craftsmanship that has defined our studio since day one.
